- **Emergency Cost Allocation funds were approved and will be distributed as early as August - details are still coming to us. A letter will be sent to you along with the funds with the explanation. I don't have information on who will receive the funds or how much.**

We discovered that the whole grain information from WIC that we handed out to you before is no longer valid because they updated it a couple years ago and we didn't know. I will be posting the new information on our website and we will be mailing you the updated pages soon. You will need to check and see if your current whole grain products and cereals that you are serving are still on the approved list.

I'm also going to mail to everyone the Fluid Milk Substitution page which has the requirements the Non-dairy substitute has to meet in order to be credible without a doctor's statement. If you have a doctor's statement then we will need a copy for our files.

Community Resources by Kansas County

In order to help low-income Kansans who are having to make choices between food, rent, utilities, client obligation, spenddown, medical expenses and health insurance premium, the KanCare Ombudsman Office has created a [Community Resources by County for Kansas](#) webpage. This resource can help provide information for each Kansas County about basic services including medical, information and referral, food, transportation, shelter and other general resources. For additional information, contact the KanCare Ombudsman Office at 1-855-643-8180 or KanCare.Ombudsman@ks.gov.
